HOMES IN CONFUSION.

Moving and House-Cleaning Days Are Upon Us---Comfortless Men and Cross, Tired Out, Nervous Women.

Van Tromp, with a broom at his mast-head, sailed up and down the Thames in defiance.

Brooms and dust rags are now putting households everywhere into confusion.

The traditional time for moving and house-cleaning is upon us. Innumerable cases of weakened nerves, exhausted strength and debility date from these days of feverish exertion, fret and cold rooms.

Every good housewife, however, feels bound to risk health and strength in this annual struggle with dirt and dust.

But as a preparation for great bodily and mental strain, hosts of careful women build up their strength with Paine's Celery Compound, the great nerve and brain strengthener and re-

stor. Physicians prescribe it for dyspepsia, kidney trouble, sick headaches and all forms of nervous weakness, because it makes people well when other remedies can do no good.

Men and women who have the tired, languid feeling that indicates depleted blood and a feeble condition of the nervous system need Paine's Celery Compound, the remarkable discovery of Professor Edward E. Phelps, M.D., LL.D., of Dartmouth Medical School, the one great spring medicine prescribed by physicians of every school.

Sleep is the necessary condition of the system to restore its lost powers and retain its vigor. Paine's Celery Compound quickly repairs the waste, worn out, nervous tissues, calms and equalizes

nervous action and brings refreshing sleep that makes recovery easy.

There is such a thing as too closely watching for signs of ill health, but, on the other hand, there is a wise attention to signs of weakness and breaking down. Painful sensations and sudden weakness are nature's evident hints. Constipation, with flatulency and nausea in the early morning, suggests serious trouble. The dull, wearing ache at side and back should make one pause to think.

Bright's disease and disorders of the heart and liver may be positively and permanently cured by taking Paine's Celery Compound as soon as neuralgia, weakness, rheumatism, lack of appetite, and low spirits show the beginning of disease of some of these important organs.

There are people in this city who are still saying the late revival was all excitement, and just for the time it was being held that long were the people in earnest. They have only to look around and see the older ladies in a midweek prayer-meeting, the young ladies in a prayer and praise service once a week and the good people of the First Ward holding meetings nightly at their respective residences. If this is the spirit of revivals and the harvest that is reaped after its close, we say give Maysville another one and see if we can't do away with all the vice in our city.

The usual services at the Church of the Disciples tomorrow at 10:45 a. m. and 7:30 p. m. Sunday-school at 9:30 a. m. Y. P. S. C. E. at 6:30 p. m. Morning subject: "The Sick Man's View of Religion." Night lecture: "Coxey's Commonwealth: A Symptom of Our National Ailment." Count Tolstoi, Russian Minister of the Interior, proposes to put a stop to the growth of Nihilism by putting an end to the higher education of the poorer classes. In 1887 he issued an order, of which the following is an extract: "The gymnasias, high schools and universities will henceforth refuse to receive as pupils or students the children of domestic servants, peasants, tradesmen, petty shopkeepers, farmers and others of like condition, whose progeny should not be raised from the circle to which they belong and thereby be led, as all experience has shown, to become discontented with their lot and irritated against the inevitable inequalities of the existing social positions." Our position is the opposite. We are bound to educate "our masters," the masses. Popular power makes popular intelligence a necessity; popular intelligence makes the multiplication of popular wants inevitable, and the multiplication of popular wants, if more rapid than the improvement of the popular condition, necessarily produces popular discontent. The multitudes have already tasted of the tree of knowledge and have become aware of their nakedness, and a supply of bare necessities are mere "fig leaves." Laboring men, come and hear the discussion.

E. B. Calk, Minister.

Death Last Night of This Most Estimable Young Lady.

KILLED LAST NIGHT.

Henry Bowers at Limestone Bridge By the C. and O.

About 11 o'clock last night Ab Jones was walking along the C. and O. track, when he found a mangled body lying at the Eastern end of the bridge over Limestone.

It was that of Henry Bowers, colored. The head had been terribly crushed, and was hanging between the ties, nearly torn from the trunk. Besides this, several bones were broken about the body. Death must have been instantaneous.

Bowers has a wife and two children living in the Fifth Ward.

Yesterday he was seen about town pretty drunk, and it is supposed he sat down on the track for a snooze. Freight train No. 63, Westbound, woke him up in the happy land of Canaan.

The body was taken to Q. A. Means & Son's undertaking establishment, where Coroner Roe held an inquest, developing the above facts.

LATER.

Just as we go to press, we learn that blood has been discovered beyond the point where the body was found, and there are now suspicions of foul play. An investigation will be made.
